2ND ANNUAL ALPINE WARRIOR 22 CHALLENGE FOR SUICIDE PREVENTION

22 is a widely recognized number in the Veteran suicide prevention community. **It is known as the number of Veterans who take their lives each day.** This number varies, but it has been a rallying cry for Veteran and Active Duty resources in suicide prevention.

Join the Fort Drum Suicide Prevention Program for a week-long 22-mile snowshoe hike, where we will hike 4.4 miles each morning followed by a 22-minute class that will address common risk factors for suicide.

When: 0630 each day 27FEB-3MAR 23

Where: NCO Academy

**Use the QR code
to sign up.**

POC: William VanOrman
william.c.vanorman.civ@army.mil

- **Who:** Fort Drum Units/Individual Soldiers and Family members.
- **What:** We will snowshoe 22 miles that week and attend a 22 minute classes each day. This number is well recognized in the Veteran suicide prevention community so everything will revolve around the number 22.
- **When:** 27 Feb – 3Mar 23
- **Where:** NCO Academy/Remington Pond
- **Why:** February through June has seen increased risk for suicide in previous years. This event provides an opportunity to address common risk factors.
- **How:** Start each morning with a 4.4 mile snowshoe hike from the NCOA through Remington Pond. After each hike, we will have a different 22 minute class each day in the NCOA classroom. This will capture the attention of the attendees with a new delivery method, while limiting the time they have to dedicate from their training schedule. Topics will address suicide risk factors:
 - 27 Feb - Work Stress (Wellness Center)
 - 28 Feb - Relationship issues (FAP)
 - 1 Mar - Legal Issues (SP2)
 - 2 Mar - Drug and Alcohol (ASAP)
 - 3 Mar - Transition challenges (Relo)

MHS GENESIS Pharmacy Updates

- What is the difference between a prescription “renewal” and a prescription “refill”?
 - A refill is not a prescription; it’s an authorization from the prescriber which allows the pharmacy to fill a single prescription multiple times. A renewal is a new prescription intended to replace a previous one, usually because the previous prescription expired or ran out of refills.
 - For example, your provider might give you a prescription for a 90-day supply of a drug, with three refills authorized. You present the prescription to the pharmacy and receive your initial fill of the medication. 90 days later fill you get your first refill; 90 days after that you get the second refill; and 90 days after that you get the third and final refill (for a total of four fills). Since there are now no refills remaining on the original prescription, you would need to request a renewal from your provider to keep receiving the medication.
- Medication renewals can now be requested through the MHS GENESIS Patient Portal.
- Medication refills can **no longer** be requested online, please utilize the medication refill phone line at **(800)-354-9280** or **(315)-772-3696**.
 - Last 4 of the Sponsor’s Social Security number
 - Prescription number (found on the medication label)
- Medication refill requests will be processed within **48 business hours**.

MHS GENESIS

WE APPRECIATE YOUR PATIENCE AS WE EXPERIENCE LONGER WAIT TIMES.

As we transition to MHS GENESIS, our providers and staff will need time to adjust to the new workflows, procedures, and processes. We slowed down our operations to ensure safe patient care is maintained during this transition. Please expect delays.

During this time, you can expect to experience:

- Increased wait times for Lab & Radiology results
- Increased wait times for Pharmacy pick up
- Longer appointment times
- Reduced appointment availability
