9/29	Memorial to Monument Fun Run	9 a.m. start	Memorial Park, Fort Drum

AFAP Issues Update Directorate/Agency Updates

AFAP ISSUES

EDUCATION CENTER

Issue: College Students struggle with classes like math and science, online tutoring is not helpful.

Scope: Math and Science classes are complicated and at times tutor.com does not assist in these courses. Visual courses, hearing something or reading it in a chat room is inefficient.

Recommendation: Fort Drum needs to have a tutoring program - whether it be paid for or on a volunteer basis to help the adult learners in the community to academically succeed. If volunteers cannot be properly outsourced, look into partnering with Jefferson Community College.

Issue Status: Army Education at Fort Drum is working the issue. However, the agreements between schools providing education to Soldiers, Familymembers, and DoD civilian employees requires that the school provide tutoring as part of their support to these students; as they provide to the students on their main campuses. Additionally, It would be difficult for a single school to provide tutors for subjects not in their curriculums.

DEER

Fish & Wildlife Management Program HAVE YOU SEEN A DEER FAWN?

We are looking for deer fawns in Fort Drum's Cantonment Area.

If you see a newborn fawn, please contact
Cornell University
414-315-2588

Please provide the location of the fawn as specific as possible.

Please do NOT catch the fawn.

Researchers from Cornell University will capture the fawn and then release it unharmed.

DEER

TICK MANAGEMENT

The Tick Bite Locator helps guide you where to find different species of ticks on your body.

bite
ticklocator

To prevent diseases like Lyme disease and others, you need to do a **DAILY TICK CHECK**.

Don't really know where to look? The Tick Bite Locator® will guide you to the most likely spots on your body to check for different species and stages of ticks you might encounter.

Find a mirror, bright lights, be flexible
Or better yet, find a very GOOD friend.

Tick Encounter Resource Center

TICK MANAGEMENT

LYME DISEASE ALERT

DO A THOROUGH BODY CHECK FOR TICKS AFTER BEING OUTDOORS.

Deer tick size (left to right)
larva, nymph, adult

How To Remove A Tick

- Using tweezers, grasp tick near the mouth parts, as close to skin as possible.
- Pull tick in a steady, upward motion away from skin.
- DO NOT use kerosene, matches, or petroleum jelly to remove tick.
- Disinfect site with soap and water, rubbing alcohol or hydrogen peroxide.
- Record date and location of tick bite. If rash or flu-like symptoms appear contact your health care provider immediately.
